About Us:

Managing your business payroll services should be easy and worry-free. Our Payroll Services can help you get it right the first time. A current report from the Gov-

The key to success

ernment Accounting Office (Report GAO/T-GGD-91-65) shows that the Internal Revenue Service penalized 34 percent of all employers who used the payroll depository system for incorrect or late payments of taxes owed. With

our service, the only thing an employer has to do is figure hours and then fax, or e-mail that information to our office. We process the payroll and print checks on checks we provide. This leaves the owners with the task of just signing the checks. The payroll service also includes handling the annual worker's compensation audit at no extra cost.

Our services aren't limited to just Nebraska. We can take care of multi-state payrolls as well. In addition, our Tax Management System tracks all payroll taxes, pays payroll taxes on the appropriate days, and files all payroll tax reports with federal, state and local agencies. We also provide copies of this information to the client.

Payroll Services:

Paying employees, payroll laws and the IRS have made payroll nightmare for the business owner. Small business owners spend an average of 12 full days a year just doing their payroll. That time could be spent generating sales, prospecting new business opportunities, improving products or services, or servicing customers.

Time & Attendance:

Time is money. As a business owner, you're focused on saving both. Take a closer look at how your company manages employee time to assess where you could be saving. How well is your current system helping you control costs and facilitate efficient work processes? We can provide your company with a multitude of time-collection options that fit your needs. Unlike some companies that require long term leases, we can refer you to a third-party vendor who can provide you with a broad array of options. These systems can help minimize lost-time instances and boost employee productivity.

401(k) & Retirement:

We offer 401(k) plans, Simple-IRA plans, and Defined Benefit plans that are designed to deliver a business and its employees the maximized benefit. Use our deep retirement and payroll knowledge and expertise to help you better manage the right retirement plan for you.

Investments will fluctuate and may be worth more or less than when originally purchased. There is no assurance that any particular strategy will work under all market conditions.

We have experience working with all types of businesses. However we have extensive experience with:

Restaurants (Full and Self Service)

Transportation & Trucking

Agricultural

Churches & Clergy

Multi State Payroll
